NEXTJOBBER

Brand foundations

NextJobber helps independent job seekers explore career options and make progress toward their next role.

Your next career step, with a plan.

Original identity

Airy geometric lettering, complete letter stems, rounded joins, and a custom NJ symbol form the new identity. The supplied master artwork is newly drawn.

Brand character

Clear, considered, encouraging. Focus on choices, real examples, and a useful next action.

Your experience has more to offer

DejaVu Sans Bold for headings

DejaVu Sans for body text. Both font files and the redistribution license are included. The logo is outlined artwork and does not need a font installation.

Readable pairings

Use ink or plum on light backgrounds and white on plum. Reserve rose for accents rather than small text on white. Preserve strong contrast in buttons, captions, and print templates.
